The European Association for Integrating Food Science and Engineering Knowledge Into the Food Chain (Iseki-Food) conference is a biannual event that presents an opportunity for a discussion in education, research and engagement in the food science and technology area. The organising committee aims to provide an environment to exchange ideas and experiences, establish business and research relations and create collaborations.

On behalf of the Editorial Team we are announcing an special issue of the International Journal of Food Studies (IJFS) that will receive relevant applications from the conference. We are cordially inviting applications to become Editor and manuscript submissions for this Issue. Applications to become a Special Issue Editor are open for Iseki-FOOD associates. Please email your interest and details to the **Editor in Chief** by the 5th of July 2023. The role of the Editors for this issue will be to select manuscripts of interest for the International Journal of Food Studies from the conference submissions.

Authors of approved submissions at the 7th Iseki Food Conference interested will have the following schedule:

1. A call for submissions will be opened until September 2023 in the **IJFS submission system**
2. The peer review of the manuscripts will be reviewed between September and January 2024.
3. Typesetting, layout and production of the issue will be completed by March 2024.

From the Editorial Team of the International Journal of Food Studies we wish you a very successful conference!
